

Application Form 2024

National Diagnostic Protocols

The Subcommittee on Plant Health Diagnostics (SPHD) is seeking individuals or groups to undertake the update, review and/or verification of National Diagnostic Protocols (NDPs).

This form should be used to submit your application for the update, review and/or verification of the NDPs specified on page two of this form.

Successful applicants will receive funding as compensation for their time.

Application requirements:

- All applicants must complete pages 1-4.
- **Please refer to the [Guidelines for Diagnostic Protocol Review 2024](#) before completing this form.**
- The guidelines are available on the **NPBDN website** (plantbiosecuritydiagnostics.net.au) or via **NDPCoordinator@phau.com.au**.
- Applications close on **Friday, 29 November 2024 at 5.00pm AEDT**.

Project details

Select the NDP or draft protocol you are interested in reviewing as part of this project. More than one can be selected.

NDP review

- *Phytophthora infestans* (exotic strains; potato late blight)

NDP verification

- *Cicadulina mbila* (maize leafhopper)
- *Hyalesthes obsoletus* (Cixiidae planthopper)

NDP review and verification

- *Bursaphelenchus cocophilus* (red ring nematode)
- *Diaphorina citri* (Asian citrus psyllid)
- *Phyllosticta spp.* (banana freckle)

NDP update of the old draft

- *Austropuccinia psidii* (myrtle rust)
- Exotic invasive snails (various)

Expertise to review selected NDP/s

Outline your experience/expertise in the pest group(s) or related pests being included in the draft NDP and any prior experience in developing, reviewing or verifying NDPs. If more than one person will be involved in the review, list all who will be involved and their relevant experience.

Timeline

Outline the expected timeline for completion, including a proposed start and end date.

Linkages and contacts expected to be developed (if any)
